	:	
Filed: September 29, 2006	:	Examiner: JEAN-LOUIS, SAMIRA JM

For: IMPROVEMENTS IN CANCER TREATMENT AND CANCER TREATMENT EFFICACY  
PREDICTION BY BLOCKING AND DETECTING PROTEASE INHIBITORS

**SUBMISSION OF CORRECTED INFORMATION DISCLOSURE STATEMENT**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

Confirming a recent telephone conversation between the undersigned Applicants' counsel and the Examiner, submitted herewith is a Corrected Information Disclosure Statement ("Corrected IDS") which is intended to supersede and replace the IDS filed on October 30, 2008 ("the October 30 IDS"). Counsel explained that the October 30 IDS inadvertently included several references which were directed to different areas of science and technology than this application and therefore should not have been cited in the October 30 IDS. Thus, it is respectfully requested that the October 30 IDS be disregarded and the enclosed Corrected IDS be considered.

Counsel regrets any inconvenience which may have been caused by the October 30 IDS.

Applicants respectfully point out that the submission of the listed documents in this Information Disclosure Statement is not an admission that they are prior art or that they are material to patentability of any claims of the Application. Also, the submission of this Information Disclosure Statement is not an indication that a search has been made by Applicants.

Please charge any shortage in fees due in connection with the filing of this paper, including extension of time fees, to Deposit Account 50-2478 and please credit any excess fees to such deposit account.

Respectfully submitted,

By: /Stanislaus Aksman/
